PETITION

SIR:

This Petition is submitted pursuant to 35 U.S.C §118 and 37 C.F.R. §1.47(b) to request that the U.S. Patent and Trademark Office ("PTO") accept the filing of the above-identified US Patent Application by Sonera Oyj, a corporation of Finland, *in lieu* of by the sole inventor, Mariette Lehto, on the ground that Ms. Lehto has refused to sign the Declaration in support of the subject US application.

The undersigned, and other attorneys in the law firm of the undersigned, are the attorneys for Sonera Oyj (formerly known as Sonera Oy¹), a corporation of Finland. The undersigned is empowered and has the authority to act on behalf of Sonera Oyj, which is the proper and lawful owner of the invention of the subject US application.

¹ The change of name of the Finnish company "Sonera Oy" to "Sonera Oyj" was an obligatory change when the company was listed on the Finnish Stock Exchange. An English-language translation of

In brief, and as explained more fully below, (1) Ms. Lehto has refused to sign the Declaration in support of this application, (2) Ms. Lehto has acknowledged her obligation to assign to Sonera Oyj the U.S. application which is the subject of this Petition by having already executed an assignment of the Finnish priority patent application directed to the same invention as the subject U.S. application, and (3) as an employee of Sonera Oyj at the time that the invention was made, Ms. Lehto is in any event required, as a matter of Finnish statutory law, to assign the invention which is the subject of this U.S. application to Sonera Oyj.

On July 11, 2001, the undersigned filed (by U.S. Postal Service Express Mail) the papers necessary to obtain a filing date for a new U.S. patent application under 35 U.S.C. §1.53(b), based on the priority of Finnish patent application No. 990,053, filed January 13, 1999, and International (PCT) Patent Application No. PCT/FI00/00020, which had been filed on January 12, 2000 and in which the United States was properly designated. This Section 1.53(b) filing request was accompanied, *inter alia*, by an unexecuted Declaration of the sole inventor, Ms. Mariette Lehto.

The Finnish priority application was filed by Sonera Oy (now Sonera Oyj) as applicant, and the International priority application was filed by Sonera Oyj as applicant (for all countries except the United States, with respect to which Ms. Lehto was named as applicant). Both priority applications are directed to the same invention as that disclosed and claimed in the subject U.S. application. Ms. Lehto, as inventor, executed an Assignment of the Finnish priority application to Sonera Oy (a copy of that Assignment is attached to the Declaration of Markku Simmelvuori, Exhibit 2 hereto; a copy is also attached to the Declaration of Anni Vepsäläinen, Exhibit 3 hereto).

the extract for Sonera Oyj from the Finnish Register of Companies is attached as Exhibit 1 hereto.

As noted above, the U.S. application which is the subject of this Petition was filed on July 11, 2001 and was accompanied on filing by an unexecuted Declaration of the sole inventor, Ms. Mariette Lehto. The unexecuted Declaration identified the undersigned and other members and employees of undersigned's law firm (Cohen, Pontani, Lieberman & Pavane) as the record attorneys for the application, and identified undersigned's law firm as the mailing address for all correspondence in connection with the application.

On July 27, 2001 - having received back from the PTO the return receipt postcard which had been filed with the application papers on July 11, 2001 and now bearing the Serial Number (09/903,225) that had been assigned to the application - the undersigned sent a letter to European patent attorney Markku Simmelvuori of the Finnish law firm Papula Oy, confirming the filing of the application. (We correspond with Sonera Oyj through the Finnish law firm Papula Oy, from whom we also receive the instructions of Sonera Oyj.) Our letter of July 27, 2001 enclosed a copy of the application as filed in the PTO on July 11, 2001, and requested that the Declaration and Power of Attorney attached to the end of the application papers be signed and dated by inventor Lehto and returned to us for filing in the PTO. A copy of that July 27, 2001 letter, and of the Declaration and Power of Attorney document (but omitting the remainder of the application to which the Declaration document was attached) that accompanied that letter, is attached as Exhibit 4 hereto.

On August 27, 2001, a paper entitled "Notice to File Missing Parts of Nonprovisional Application Filed Under 37 CFR 1.53(b)", noting the lack of an executed Oath or Declaration of the inventor, was mailed to the undersigned by the PTO. That Notice was received by undersigned's law office on September 7, 2001. A copy of that Notice, as received on September 7, 2001, is attached as Exhibit 5 hereto.

On September 12, 2001, the undersigned informed European patent attorney Markku Simmelvuo of our receipt of the Notice to File Missing Parts, and provided Mr. Simmelvuo with an accompanying copy of the Notice by fax. (A copy of the September 12, 2001 fax - on which additional notations indicating the dates on which the fax was resent to Mr. Simmelvuo as a reminder of the deadline(s) for filing of the executed Declaration - is attached as Exhibit 6 hereto.)

Sonera Oyj first forwarded a copy of the U.S. application and accompanying Declaration to inventor Lehto for execution in or about July, 2001. Despite Sonera Oyj's efforts to obtain the signature of Ms. Lehto on the required Declaration, the inventor has refused to sign the document and thereby necessitated the filing of this Petition. (See the Declaration of Anni Vepsäläinen, Exhibit 3 hereto.)

Inventor Mariette Lehto's last-known, and on information and belief her current, address is 7 Tredegar House, 97-99 Bow Road, Bow, London E3 2AN, Great Britain. All communications with Ms. Lehto seeking her signature on the Declaration for the subject U.S. application have been directed to that address.

Ms. Lehto is under a duty to assign the subject U.S. patent application to Sonera Oyj as a direct consequence of her employment by Sonera Oy/Sonera Oyj. The attached Exhibit 2 Declaration of European Patent Attorney Markku Simmelvuo, of the Finnish patent firm Papula Oy, states that under Finnish statutory law an employee's inventions are owned by the employee, in this case Sonera Oyj. Attached to the Exhibit 2 Declaration of Mr. Simmelvuo is a Certification evidencing the employment of inventor Lehto by Sonera from February 5, 1991 to December 31, 1998 - a period that includes the time that the invention of the priority Finnish patent application, and correspondingly of the subject U.S. application, was made.

In addition, as also noted above, Ms. Lehto has already expressly assigned the underlying priority Finnish patent application to Sonera Oyj (see the attachments to Exhibits 2 and 3), evidencing her recognition and acknowledgement (at a time that she was being cooperative) of ownership of the subject invention in Sonera Oyj.

Thus, Sonera Oyj is the proper, legitimate and lawful owner of the invention set forth in the subject U.S. patent application and, since Ms. Lehto as sole inventor of that invention has refused to sign the Declaration in support of the U.S. application, Sonera Oyj is the proper and permitted party to sign the Declaration and file the subject application in *lieu* of Ms. Lehto.

Also attached, as Exhibit 7 hereto, is a Declaration and Power of Attorney for the subject U.S. patent application which has been signed by the General Counsel and Ass. General Counsel of Sonera Oyj. These individuals are authorized to sign such documents on behalf of Sonera Oyj. (See Exhibit 1 hereto)

Sonera Oyj, as the lawful and legitimate owner of the invention which is the subject of the U.S. patent application to which this Petition is directed, will suffer irreparable damage unless it is permitted to sign the Declaration and file the U.S. application *in lieu* of the non-signing, sole inventor Mariette Lehto. Such irreparable damage is evidenced and established in this case in that the July 11, 2001 filing date of the U.S. application was the final day on which the U.S. application could have been filed in the United States to maintain the priority of Finnish Application No. 990,053 of January 13, 1999. Loss of that priority would now result in a statutory bar to patent protection of the invention in the United States, since the International Application was published on July 20, 2000.

Based on the foregoing and the enclosed, it is respectfully requested that the U.S. Patent and Trademark Office grant this Petition and accept the filing of the subject U.S. patent

application by Sonera Oyj in *lieu* of the sole inventor, Mariette Lehto, pursuant to 35 U.S.C. §118 and 37 C.F.R. §1.47(b).

The undersigned hereby declares that all statements made herein of his own knowledge are true, and that all statements made on information and belief are believed to be true; and, further, that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine, or imprisonment, or both under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

A check in the amount of \$1,960.00 in payment of the government fee for a five-month extension of time, a check in the amount of \$130.00 in payment of the government fee for the filing of "missing parts" in response to the August 27, 2001 Notice, and a check in the amount of \$130.00 in payment of the government fee for the filing of this Petition, are enclosed herewith.

Any additional fees or charges required at this time in connection with the subject patent application may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,

COHEN, PONTANI, LIEBERMAN & PAVANE

STATEMENT

Sonera Oyj (formerly Sonera Oy) owns the rights to the invention "METHOD AND SYSTEM FOR THE EFFECTING PAYMENTS BY MEANS OF A MOBILE STATION", a patent application concerning which is pending in the USA under the application number 09/903,225. A patent has been applied for the invention also in Finland under the application number FI 990053 and with an international patent application PCT/FI00/00020. These applications are also the priority applications of the above-mentioned U.S. application.

With the enclosed assignment the sole inventor, Mariette Lehto, has transferred his rights to said invention "METHOD AND SYSTEM FOR THE EFFECTING PAYMENTS BY MEANS OF A MOBILE STATION" to Sonera Oy (at present Sonera Oyj). In the assignment it has been stated that the assignee gets a right to dispose the invention.

Enclosed please find an extract from the law about the employer's right to the inventions made by the employee with its translations into English. Section 4 of the law shows that if the invention was made when fulfilling the duties of the employee in employment, then the rights to the invention belong to the employer. This is very unambiguous, and based on this, the right to the invention belongs clearly to the employer of Lehto. We enclose a copy of the work contract which shows that Lehto was in an employment relationship with Sonera Oy at the time the invention, i.e. the Finnish application FI 990053, was made.

(ESIMES)*
- 1 I am employed by Sonera Oyj of Helsinki, Finland.
 - 2 I am currently overseeing the matter of the registration of US patent application US 09/903,225 for us.
 - 3 In 1999, we filed a patent application FI 990053. The application was filed on 13 January 1999.
 - 4 In 1999 we filed an international application under the Patent Co-Operation Treaty (hereinafter "PCT") claiming the Finnish filing date as the priority date.
 - 5 We prepared the Finnish patent application FI 990053, under the direction of Mariette Lehto, employee of Sonera Oy at that time. Ms. Lehto was also the sole inventor of the subject patent.
 - 6 According to Finnish law, and more specifically, to the statute of the Laws of Employees Inventions, all inventions created during the time of an individual's employment with a company, are property of the employer. Ms. Lehto must execute all documents which are needed to ensure the subject invention is patented because she was an employee of Sonera Oy and helped create an invention at the time. Attached hereto is an assignment. It serves as evidence to demonstrate the co-operation of Ms. Lehto prior to her decision not to execute documents needed for the subject patent.
 - 7 According to the law and decree of employee inventions, Sonera Oyj has the rights to the invention in question and Ms. Lehto is obliged to sign all the documents needed in the patenting process with respect of the invention.
 - 8 Again referring to assignment, Ms. Lehto, confirms that the rights to the subject invention, under the Finnish law belong to Sonera Oyj. By executing the patent document, she relinquishes her interests and rights to the invention.
 - 9 Within 30 months of the priority date, 13 July 2001, the international application entered the national stage.
 - 10 On or about July, 2001, we prepared declaration for the US national stage application. After completed, we delivered the declaration together with specification to Mariette Lehto and did not receive a signed declaration.

Our File No. 2132-48PCON

Dear Markku:

Per your letter of 4 July 2001, we filed the above-identified patent application in the United States Patent and Trademark Office on 11 July 2001 in order to preserve the convention priority. A copy of the application as filed is enclosed.

Since the application was filed in unexecuted condition -- and we have received the Serial No. that has been assigned to this application, would you, therefore, please have the inventor -- **Mariette LEHTO** -- sign and date the Declaration and Power of Attorney, as well as the enclosed Assignment document and return both to us at your earliest convenience.

We shall file the Declaration and Power of Attorney as soon as we receive a paper from the Patent and Trademark Office entitled "Notice to File Missing Parts - Filing Date Granted. As usual, we shall file the Assignment document upon allowance of the application.

Also enclosed is our invoice for services rendered in connection herewith.

In view of the disclosure rules of the U.S. Patent and Trademark Office, please provide us as soon as possible with a copy of all references mentioned in the application, if any, and of any

DECLARATION AND POWER OF ATTORNEY FOR PATENT APPLICATION

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is claimed and for which a patent is sought on the invention entitled

METHOD AND SYSTEM FOR THE EFFECTING PAYMENTS BY MEANS OF A MOBILE STATION

the specification of which was filed on July 11, 2001 and accorded Serial No. 09/903,225.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37, Code of Federal Regulations, Section 1.56(a).

I also acknowledge the duty to disclose information which is material to the patentability of this application in accordance with Title 37 CFR 1.63(d), which occurred between the filing date of the prior application and the filing date of the continuation-in-part application, if this is a continuation-in-part application.

I hereby claim foreign priority benefits under Title 35, United States Code, Section 119 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:
